

Companionway Doors

Customer name _____
 Boat Brand _____ Model _____ Year _____

Measuring Instructions - All doors are custom made, therefore you will need to print a copy of this instruction sheet and Fax or Mail it, along with the order form and hatch board patterns to: ZARCOR, 4400 Sunbelt Dr. Addison, TX 75001 - Fax 972-407-9096 972-380-8724 800-877-4797

Instructions

We have made doors for hundreds of boats, and find that boat dimensions vary, even for the same brand, model and year boats. Please provide us with the following 3 informational requests. Note: see ordering side (reverse) to learn what measurements are needed for your boat.

#1 - Place your hatch boards together on a piece of paper. Gift or wrapping paper works fine. Trace the trapezoidal outline, with the weather side up.

#2 - Make and record all required measurements as found on this sheet.

#3 - Email 5 or 6 digital pictures to halter@zarcor.com. The pictures we request are: #1 a general overview of your companionway, #2 a close-up of the bottom threshold, and #3 a close-up of the hatch board slot. Placing a measuring rule in the pictures helps depict scale.

Summary

When ordering please provide the following

#1 - Paper outline of boards #3 - Measurements 1-13 (this sheet)
 #2 - Email pictures #4 - ORDER FORM

Direct questions to halter@zarcor.com 972-380-8724

The above depicts hatch boards inserted into a continuous "U" channel as found on Beneteau, Hunter, Jeanneau and other boats.
